

REIMAGINE: Enabling Abilities for Life!

Over the next 10 years, it's our goal to reimagine our current facilities, where possible, into year-round community hubs, offering summer camps for kids with diverse abilities and new programs for adults that include skills and employment development, social enterprises, housing and so much more. This trailblazing vision is designed to build on our legacy to help children with diverse abilities, supporting them as they age and making the best use of our camp facilities.

Shawnigan Lake Camp(us)

In 2019, Camp Shawnigan Lake will reopen for a summer camp program in August, and we will begin a campaign to redevelop the site into a multi-purpose community hub of programs and services to meet the expanded needs of persons with diverse abilities.

Over the next five years, supported by a capital campaign, it is our desire to support children with diverse abilities throughout their lifetime by offering our cherished summer camp, potentially new skill development and learning programs, social enterprise work opportunities, social housing, and more.

Winfield Camp(us)

In 2019, Camp Winfield will offer its summer camp program in July, and we will begin to work with the community and municipality to start planning its upgrade and create a new community hub of programs and services to meet the expanded needs of persons with diverse abilities.

Over the next five years, supported by a capital campaign, it is our desire to support children with diverse abilities throughout their lifetime by offering our cherished summer camp, potentially new skill development and learning programs, social enterprise work opportunities, social housing, and more.

New Urban Camp(us)

Looking to the future, the Society is considering the consolidation of its programming into one site in the Lower Mainland. With the largest population of persons with diverse abilities being in the Lower Mainland, it is an ideal location for a new community hub to support children with diverse abilities throughout their lifetime by offering a summer activities program, potentially new skill development and learning programs, social enterprise work opportunities, social housing, and more.

Over the next 10 years, supported by a capital campaign, it is our goal to reimagine and redevelop our Lower Mainland facilities and create a new community hub of programs and services to meet the expanded needs of persons with diverse abilities.
